RESPONSE TO NOTICE TO COMPLY WITH REQUIREMENTS FOR PATENT
APPLICATIONS CONTAINING NUCLEOTIDE SEQUENCE
AND/OR AMINO ACID SEQUENCE DISCLOSURES

Sir:

In response to the Notice to Comply with Requirements for Patent Applications Containing Nucleotide Sequence and/or Amino Acid Sequence Disclosures mailed by the United States Patent and Trademark Office on January 13, 2003 (copy attached), Applicants submit the following documents to complete the filing for the above-identified patent application:

1. **Substitute** Submission Under 37 CFR §1.821-1.825 Sequence Listing (1 pg);
2. One (1) **substitute** computer-readable CD-R/Diskette; and
3. A **substitute** paper copy of the sequence listing.

Applicants hereby request a three-month extension of time in order to file this Response.

Authorized fees include the statutory fee of **\$930.00** for a three-month extension of time.

Remarks

With respect to the Examiner's comment that the addressee, currently listed as "Incyte Pharmaceuticals," should instead read "Incyte Genomics," Applicants respectfully point out that addressee is now known as "Incyte Corporation," and that both the CRF and paper copies of the Substitute Sequence Listing reflects that fact.

If the Commissioner determines that additional fees are due or that an excess fee has been paid, the Patent Office is authorized to debit or credit (respectively) Deposit Account No. **09-0108**.

If there are any questions regarding the above, the Examiner is invited to call the undersigned.

Respectfully submitted,

INCYTE CORPORATION

Please find below a communication from the **EXAMINER** in charge of this application
Commissioner of Patents

This application contains sequence disclosures that are encompassed by the definitions for nucleotide and/or amino acid sequences set forth in 37 CFR 1.821(a)(1) and (a)(2). However, this application fails to comply with the requirements of 37 CFR 1.821 through 1.825 for the reason(s) set forth on the attached Notice To Comply With Requirements For Patent Applications Containing Nucleotide Sequence And/Or Amino Acid Sequence Disclosures.

The paper copy of the SEQ. listing filed in the instant application is defective because it does not list the "prior application data" (eg. parent application 08/928442) in mandatory section (1), part (vii) as per 37 CFR 1.823 (from the preJuly 1998 sequence rules, because the instant listing is in the format of the preJuly 1998 sequence format).

The paper copy of the SEQ. listing and CRF both incorrectly list the addressee as Incyte Pharmaceuticals wherein it should read Incyte Genomics.

Applicant is given ONE MONTH, or THIRTY DAYS, whichever is longer, from the mailing date of this letter within which to comply with the sequence rules, 37 CFR 1.821 - 1.825. Failure to comply with these requirements will result in ABANDONMENT of the application under 37 CFR 1.821(g). Extensions of time may be obtained by filing a petition accompanied by the extension fee under the provisions of 37 CFR 1.136(a). In no case may

an applicant extend the period for reply beyond the SIX MONTH statutory period. Direct the reply to the undersigned. Applicant is requested to return a copy of the attached Notice to Comply with the reply.

Any inquiry concerning this communication should be directed to Examiner Ron Schwadron, Ph.D., Art Unit 1644, whose telephone number is (703) 308-4680. Any inquiry of a general nature or relating to the status of this application should be directed to the Technology Center receptionist whose telephone number is (703) 308-0196.
